

# FLIPSYD

## BIOGRAPHY

Dance music blurring across genres, is how Flipsyd describes his sound. Music has no boundaries and his DJ sets swears by it. While the heart lies in Hip Hop, RnB and Old Skool jams he seamlessly mixes in Moonbahton, twerk and trap into his music.

Other big influence is Drum & Bass. Grime and Breaks. Always a step ahead of the curve he always adds global dance music sounds into known music to offer an unique experience. He loves to represent the music he grew up listening to, Bollywood, which he samples a lot in his production as well as DJ sets.

An open format DJ who thrives more on the vibe of the room and people and not pre determined sets. One of the few DJs today who is comfortable playing opne to close sets even if thats over 5-6 hours.
